

GUHAN MURUGAIYAN

Java Backend Developer — Spring Boot & Systems Engineering

Vanur, Tamil Nadu, India | mguhan6383@gmail.com

linkedin.com/in/guhan-murugaiyan | github.com/ErrGuhan | guhanmurugaiyan.vercel.app

SUMMARY

Computer Science undergraduate with practical experience designing object-oriented, concurrent backend systems in Java 21 and Spring Boot, and delivering full-stack applications with TypeScript, Next.js, and relational databases. Comfortable across the stack, with a preference for clean service architecture and correct, well-structured data handling. Seeking a Backend or Software Development internship.

TECHNICAL SKILLS

- Languages: Java 21, Python, TypeScript, SQL
- Backend: Spring Boot, REST API design, OOP & clean architecture, concurrency, transaction handling
- Databases: PostgreSQL, Supabase, Prisma ORM
- Frontend/Full-Stack: Next.js, React, Tailwind CSS
- Other: Git/GitHub, ETL automation basics

EXPERIENCE

Data Analyst — NoviTech R&D Pvt Ltd, Chennai

Jul 2026 – Jul 2026

- Develop automated data-processing workflows in a production analytics environment, translating raw data streams into structured statistical metrics.

Accountant — Jana Fibre Glass

May 2024 – Present

- Own financial-record integrity and ledger reconciliation across manufacturing supply-chain operations, applying the same precision to data correctness that backend transaction systems require.

PROJECTS

TransferHub — Banking & Account Transfer Platform (Java 21, Spring Boot, Clean Architecture)

- Designed an AccountService transaction layer that validates balances, executes atomic sender-to-receiver transfers, and persists transaction receipts — github.com/ErrGuhan/TransferHub

CampusCart01 — Student Marketplace Platform (Next.js, Supabase, TypeScript, PostgreSQL)

- Implemented relational backend queries (joined products, sellers, categories) and an admin-verification workflow controlling what data is exposed to end users — github.com/ErrGuhan/CampusCart01

JanaFibreGlass — 3D Parametric Product Configurator (React, Three.js, Vite)

- Built typed, reusable component APIs (props-driven geometry generation) for a real-time 3D configurator — github.com/ErrGuhan/JanaFibreGlass

EDUCATION

B.Tech, Computer Science & Engineering

Expected 2028

Sri Venkateshwaraa College of Engineering & Technology (SVCET)

Relevant coursework: Autonomous Agents, Java Enterprise & Concurrent Architecture, Distributed Data Infrastructure

Higher Secondary (Bio-Mathematics)

2022 – 2024

Kuyilappalayam Higher Secondary School

CERTIFICATIONS

- Basic Data Security — Information Protection & Systems Security
- Digital Productivity Certificate — Workflow Optimization & Automation
- Communication Skill — Executive Communication & Team Presentation
- Data Analytics — Quantitative Modeling & Statistical Analysis
- Learner to Builder: Become an AI Architect — AI Architecture & LLM Design

LEADERSHIP & ACTIVITIES

- Represent the National Service Scheme (NSS) as a student representative, coordinating community-service initiatives and practicing disciplined, team-based execution.
